

Aayan Shaikh

+91 9767596361 | aayan@aayanshaikh.com | linkedin.com/in/aayan-shaikh | github.com/aayan-shaikh

TECHNICAL SKILLS

Languages: Python, C, JavaScript, TypeScript, HTML, CSS
Frameworks & Libraries: Django, Node.js, React, Next.js, Astro
Developer Tools: Git, Linux, Docker, NeoVim, Firebase, VS Code, Bun
Core Concepts: Data Structures & Algorithms, Memory Management, OOP, Functional Programming

PROJECTS

- Memory Management Systems** | *C* 2025
- Built reference counting garbage collector with automatic memory deallocation and circular reference prevention
 - Implemented mark-and-sweep garbage collector featuring graph traversal for efficient heap memory management
 - Demonstrated low-level systems programming with pointer arithmetic and manual memory operations
- Static Site Generator** | *Python* 2025
- Converting Markdown to HTML with custom templating engine and recursive directory parsing
 - Implemented modular architecture separating parsing, templating, and file generation concerns
 - Designed transformation pipeline handling multiple file formats and nested directory structures
- AI Agent** | *Python* 2025
- Built autonomous AI agent leveraging function calling capabilities with LLM integration
 - Implemented decision-making logic and state management for multi-step task execution
- Asteroids Game** | *Python, Pygame* 2025
- Developed object-oriented game featuring collision detection, physics simulation, and real-time rendering
 - Implemented game loop architecture with entity management and event-driven programming patterns
- Bookbot** | *Python* 2025
- Created text analysis tool performing data extraction and generating statistical reports from documents
- reduceify [NPM Package]** | *JavaScript, Node.js, Sharp* 2018 – 2020
- Built CLI image processing tool with batch compression and format conversion; 100+ weekly NPM downloads
 - Implemented efficient buffer handling, stream processing, and comprehensive error management
- Create-Astro-Scss [NPM Package]** | *JavaScript, Node.js* 2025
- Published project template package with automated setup using Node.js file system APIs

EDUCATION

- Symbiosis Skills and Professional University** Pune, MH
Bachelor of Business Administration in Financial Technology Aug. 2022 – June 2025
- Boot.dev Backend Developer Learning Path** Online
Python, C, Linux, Git, OOP, Functional Programming, DSA, Memory Management (In Progress) 2024 – Present

EXPERIENCE

- Founder and Developer** Mar. 2025 – Present
Kolibri Web Designs Remote
- Architect and deploy full-stack solutions for international clients achieving 95+ Lighthouse scores
 - Optimize application performance, implement responsive architectures, and manage deployment pipelines
 - Handle complete development lifecycle from requirements gathering to production deployment
- Market Research & Product Development Intern** June 2023 – Sept. 2023
boAt Lifestyle Mumbai, MH
- Analyzed 660-person survey dataset to inform product launch strategy and feature prioritization
 - Collaborated with cross-functional teams to translate consumer insights into technical requirements
 - Performed systematic testing and benchmarking to optimize product performance metrics
